By issuing this corporate governance statement Stefnir hf. (Stefnir) is fulfilling the requirements set out in recognized guidelines current at the time this Financial Statement is approved by the company's board of directors and the provisions of Act No. 161/2002. The Guidelines on Corporate Governance, 5th edition, issued by the Icelandic Chamber of Commerce, SA – Business Iceland, and Nasdaq Iceland hf. and the OECD's Principles of Corporate Governance from 2015 were used as a reference when Stefnir hf.'s corporate governance statement was written. The Guidelines on Corporate Governance and the Principles of Corporate Governance can be viewed on Stefnir's [website](#).

In 2012 Stefnir was the first Icelandic company to be recognized for "Excellence in good corporate governance." This honour was granted by the Center for Corporate Governance at the University of Iceland and is based on a survey conducted by the auditing company KPMG. Stefnir has since been recognized in this way

on repeated occasions and therefore remains a model company in good corporate governance in Iceland.

The board of directors of Stefnir believes that good corporate governance is a key factor behind Stefnir's success as a leading fund management company in Iceland. Corporate governance provides companies with a framework in which objectives are defined, which tools should be used to achieve these objectives and how the success of these objectives is measured. Good corporate governance is designed to provide the right incentives to the board of directors and management to exploit the opportunities which serve the interests of the company, the shareholders and general public. Good corporate governance also enables the board to perform its monitoring duties effectively.

Stefnir is an independent financial institution according to the Financial Undertakings Act No. 161/2002. The company manages UCITS, investment funds and

institutional investor funds under Act No. 128/2011. In addition to this, the company is licensed to operate asset management services, investment advisory and to manage financial instruments for collective investments, cf. sub-paragraphs 1-3 of paragraph 1 of Article 27 of Act No. 161/2002. Stefnir is Iceland's largest fund management company with assets of approximately ISK 331 billion under active management. Stefnir has 21 employees with extensive experience of work in financial markets.

Stefnir is a subsidiary of Arion Bank hf. The company is fully owned by Arion Bank and related companies. The company's corporate governance statement serves to encourage open and reliable communications between the board, shareholders and other stakeholders such as unit holders in funds managed by Stefnir, parties that service and participate in the operations of Stefnir, employees and the general public.

The company's operations are subject to restrictions by the legislator. The company's operations are governed by acts of law including the Financial Undertakings Act No. 161/2002 and the UCITS, Investment Funds and Institutional Investor Funds Act, No. 128/2011. Stefnir is supervised by the FME under Act No. 87/1998.

Risk management and active internal control are mainstays of the responsible operation of a fund management company. The company's board of directors has in 2018 updated its risk policy for the company with a special emphasis on reputational risk:

“Stefnir's board of directors is aware that risk management and active internal control are some of the mainstays of a responsible fund management company. By setting out a clear risk policy the board wishes to encourage and support a corporate culture at Stefnir which is characterized by a keen sense of risk awareness. The aim is also to communicate clear messages to all the company's stakeholders.

All risk within Stefnir's operations is identified and assessed on a regular basis. The company has established processes to monitor and report this risk. A special emphasis is on limiting reputational risk for the benefit of all stakeholders. Stefnir operates a strong control environment which utilizes policies, processes and systems to appropriate internal controls and risk mitigation. Stefnir

has in place a continuity plan to ensure the ability to operate despite a severe business disruption. Through meticulous corporate governance the board of directors ensures that the policies, processes and systems are implemented at all decision levels.”

The company's risk appetite has been defined and this work was based on international models which were adapted to Icelandic conditions and the company. The company's audit and risk committee participated in the preparation of the work defining the risk appetite and tolerance limits. The board of directors of Stefnir reviews the company's risk appetite on an annual basis to take into account changes in the company's internal and external environment.

Compliance, internal auditing and risk management are partly outsourced to Arion Bank with the permission of the FME. The heads of the relevant divisions regularly report the results of their assessments to the board of directors of Stefnir and the audit and risk committee. Internal control and risk management is the responsibility of a member of risk management who is part of the company's operations team. All supervisory measures are documented and regularly assessed by the team. The audit and risk committee is informed of the progress of these measures.

The structure and organization of internal corporate governance are vital tools for the effective management of the company, the separation of different business units and the prevention of conflicts of interest. Internal corporate governance at Stefnir has been assessed with respect to the FME Guidelines No. 1/2016 and the board of directors is of the opinion that the company operates in accordance with the standards set out there concerning best practice in internal corporate governance.

The company's accounting is outsourced to Arion Bank's finance division. The FME has authorized the outsourcing of this task. Arion Bank is also the depositary of Stefnir hf. and the price calculations of funds managed by Stefnir are the responsibility of the Bank. The audit and risk committee examines the company's financial statement and obtains the opinion of an external auditor on the six-month financial results and 12-month financial results of Stefnir and the funds managed by Stefnir. Reporting to the board of directors with respect to the

accounts is the responsibility of the committee; the board also meets the auditing company Deloitte.

Stefnir's core values have been an important guideline for employees and the board of directors, who devised them together, in their day-to-day work.
