## What is this product?

#### Type

This product is a share in a sub-fund of the investment company with variable capital KATLA FUND, an undertaking for collective investment in transferable securities (UCITS) under Luxembourg law.

#### Term

This sub-fund has no maturity date. However, the board of directors of the fund may decide to close the sub-fund under certain circumstances.

#### Objectives

The sub-fund's objective is to seek long-term return by outperforming the MSCI WORLD net Total Return EUR Index.

The sub-fund mainly invests in:

- shares around the world,
- collective investment funds and/or investment funds traded on stock exchanges (maximum 10% of the net assets of the sub-fund),
- exchange traded commodities.

The investment manager integrates and promotes sustainability factors within his investment strategy by applying extra-financial data.

**Benchmark:** The portfolio is actively managed on a discretionary basis with reference to a benchmark. While the product compares its performance against the MSCI WORLD net Total Return EUR Index, it does not try to replicate this benchmark and freely selects the securities that it invests in. The deviation with this benchmark can be significant.

#### Intended retail investor

This product is designed for investors who are willing to achieve income and capital growth and have a medium to long term horizon.

The investor can bear losses up to the invested amount. This product is appropriate for investors with a basic to advanced knowledge and experience of the product and the global equity markets.

#### Other information

**Depositary:** Banque de Luxembourg

**Dividend income:** This class is a capitalisation class meaning that income is reinvested.

**Conversion right:** The investor has the right to convert his investment in shares in one sub-fund for shares in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

**Segregation:** The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

**Additional information:** Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of shares may be obtained free of charge from the management company or on [www.conventumtps.lu](http://www.conventumtps.lu). The prospectus and the periodic reports are prepared for the entire fund and are available in English. The management company may inform you about other languages in which these documents are available.

This sub-fund was launched in 2002 and this share class in 2002.

The currency of the share class is expressed in EUR.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 11 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an invest-

risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

**Be aware of currency risk.** You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: Other risk factors might exist.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

ment between March 2015 and March 2020.

Moderate scenario: This type of scenario occurred for an investment between February 2017 and February 2022.

Favourable scenario: This type of scenario occurred for an investment between October 2016 and October 2021.

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if BLI – BANQUE DE LUXEMBOURG INVESTMENTS, acting under the commercial name CONVENTUM THIRD PARTY SOLUTIONS is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depositary Banque de Luxembourg. Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

|                        | If you exit after 1 year | If you exit after 5 years |
|------------------------|--------------------------|---------------------------|
| <b>Total costs</b>     | 398 EUR                  | 1,770 EUR                 |
| Annual cost impact (*) | 4.0 %                    | 2.4 % each year           |

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 11.2% before costs and 8.7% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

### Composition of costs
